Antonio Vecchio Association Sportive Etna Trail & organisator confirm: « *The MaXi-Race Sicily is a unique experience because everywhere reigns nature supreme with idyllic landscapes of the coast from Catania to Taormina, and the Tyrrhenian coast with the Aeolian archipelago and Calabria.*

*The organisation knows what makes a good event and do the utmost to ensure a fantastic, memorable day regardless of what challenge or distance you choose to enter.*

*None of our routes are 'easy'. We pride ourselves on finding tough trails for the runner who wants more than a flat road run.*

*Runners evolve on different types of soils: lava fields that were once in fusion and are now colonized by lichens; the jagged peaks of the Valle del Bove, recent flows ... with the Mediterranean as a backdrop.*

*An environment in perpetual evolution according to the diktats of the volcano very active in recent months.*

*Our partnership with MaXi-Race World helps us to professionalize and above all, to make discover the wonders of "our" mountain to trail world and their families .... »*
